

2023

South Lake Avenue Business District

ANNUAL REPORT

A Message From The

BOARD OF DIRECTORS

In 2023, the South Lake Avenue Business District focused on completing the remaining phases of the South Lake Streetscape Improvement Project which entailed pedestrian lighting, two signalized crosswalk and upgrades to the two Del Mar Boulevard Traffic Islands.

Marketing avenues included South Lake Avenue's website, social media platforms, monthly newsletter, business recruitment and retention program and promotional campaigns that resulted in increased sales for area businesses. Marketing efforts also included on-going community outreach to property and businesses owners, implementing a retail strategy, supporting property and business owners with their new development, the successful implementation of the Clean and Safe Initiative and multimillion dollar infrastructure improvements.

South Lake Avenue generated \$239.4 million in retail sales revenue with leasing transactions totaling 91,467 square feet between office and retail. Our efforts in economic development have assisted brokers and prospective tenants in acquiring the necessary tools and resources needed to generate District interest and consider South Lake Avenue as a business destination.

South Lake welcomed new tenants Brella Pasadena, Chronic Tacos Mexican Grill, Elite Beauty Bar, Erewhon Market, Mandarin Coffee Stand, Sylvan Learning, See's Candies (Seasonal Store), Spirit Halloween (Seasonal Store), Tia and Uovo Pasta. Continued collaborative efforts between the South Lake Business Association and the City of Pasadena are necessary to promote the economic vitality of the District.

The South Lake Business Association remains dedicated to improving the South Lake Avenue Business District, nurturing its growth and showcasing why it is Pasadena's premiere destination to shop, dine, live and work.

PBID ASSESSMENT FORMULA

PBID assessment formulas typically relate to property street frontage, parcel and building size and location which affect the amount of assessment to be paid. The formula may base assessments on a single factor or a combination of factors. Based on the program activities to be funded, which relate directly to the pedestrian oriented sidewalk areas, parcel size and current improvements, it is determined that the assessments be based equally on three property related elements; the amount of adjacent street/sidewalk frontage, the parcel size and the building area. Within the PBID there are roughly 24,300 linear feet of property frontage, 2.5 million square feet of land and 2.9 million square feet of building area.

Year 1 property assessment rates per parcel are \$0.07154 per square foot of building, plus \$0.08481 per square foot of land, plus \$13.14281 per linear foot of Lake Avenue street frontage, plus \$6.57087 per linear foot for all other frontages. Parcels with residential uses of 1 to 5 units (including residential condominiums) shall be assessed at the Year 1 rate of \$0.107 per square foot of building area. Parcels with residential uses of 6 or more units shall be assessed at 50% of the regular rates. Mixed use development building area assessments shall be pro-rated based on the ratios of each respective use.

Since the renewed PBID is planned for a seven year term, maximum assessments for future years (Years 2-7) must be set at the inception of the renewed PBID. While future inflationary and other program cost increases are unknown at this point, a built in maximum increase of 5% per annum is incorporated into the projected program costs and, in turn, the resultant assessment rates for the seven year renewal term of the PBID. These figures are shown in the table below. Assessment rates may not exceed those indicated below.

Seven Year Maximum Assessment Rates *(Includes a 5% annual increase)*

	2023 Rate	2024 Rate	2025 Rate	2026 Rate	2027 Rate	2028 Rate	2029 Rate

Specific Annual Adjustments
